

ORDINANCE # 274

AN ORDINANCE PROGMULGATING TREATING AND DISPOSING OF SEWAGE, INDUSTRIAL WASTE AND OTHER WASTE GENERAGED BY EACH USER, PREVENTING DISCHARGE BY MATERIALS DESIGNATED AS TOXIC, HAZARDOUS OR INJURIOUS TO THE CITY'S SEWER SYSTEM AND PROVIDING PENATLIES THEREFORE.

SECTION 1:

A user is any person, firm, corporation, partnership, trust or any other entity which utilizes the services of the City's sewer system for disposal.

SECTION 2:

Any discharge of wastes or water into a sewer which terminates in or is a part of, the sewer system of the City Sewage System must not contain the attached substances.

SECTION 3:

Any user operating discharging grease fats or oils in excess of 250 mg/l must have a grease trap and said grease trap will be pumped for removal of all grease, oil and fats once per every ninety (90) days. The user in excess of the limits herein shall cause to be filed a certified statement by the contractor who pumped or removed the oils, fats and grease the following:

I HEREBY CERTIFY that my company and/or I lawfully removed all waste from the grease trap on \_\_\_\_\_ day of \_\_\_\_\_ (year) from the \_\_\_\_\_ (owner) who is \_\_\_\_\_.

By: \_\_\_\_\_  
Contractor

SECTION 4:

Any user which disposes of any substance(s) as described in paragraph two which results in the City being fined by any other governmental Agency shall pay all fines incurred by the City, all costs

and a fine of \$500.00 and if no fine or penalty then \$500.00.

DONE AND PASSED at regular session on this 23 day of  
December, 1991.

CITY OF BONIFAY  
CITY COUNCIL

BY: John VanFurter

Attest:

Shirley Mitchell  
Clerk

# ATTACHMENT

- (a) Fats, oils or greases in excess of 250 mg/L.
- (b) Liquids, solids or gases which by reason of their nature or quantity are sufficient to cause fire or explosion or be injurious in any other way to the sewage system or to the operation of the water reclamation plants.
- (c) Noxious or malodorous liquids, gases or substances which either singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life, to cause injury or to prevent entry into the sewers for their maintenance and repair.
- (d) Water or wastes containing toxic substances in quantities which are sufficient to interfere with the biological processes of the water reclamation plants or with the disposal of sludge in any environmentally acceptable and economical manner.
- (e) Garbage that has not been ground or comminuted to such a degree that all particles will be carried freely in suspension under conditions normally prevailing in public sewers, with no particles greater than one-half inch (1.3 centimeters) in any dimension.
- (f) Radioactive wastes unless they comply with the Atomic Energy Commission Act of 1954 (68 Stat. 919 as amended and Part 20, Sub-Part D—Waste Disposal, Section 20.303 of the Regulations issued by the Nuclear Regulatory Agency, or Amendments thereto).
- (g) Solid or viscous wastes which cause obstruction to the flow in sewers or other interference with the proper operation of the sewage system or water reclamation plants, such as grease, uncomminuted garbage, animal guts or tissues, paunch manure, bone, hair, hides, fleshings, entrails, feathers, sand, cinders, ashes, spent lime, stone or marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grain, waste paper, wood, plastic, gas, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, gasoline, naphtha, and similar substances.
- (h) Liquids or vapors having a temperature higher than 150°F (65.5°C) at the point of entrance into a public sewer.
- (i) Waters or waste containing substances which are not amenable to treatment or reduction by the sewage treatment process employed or are amenable to treatment only to such degree that the water reclamation plant's effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters, or over the disposal of sludges generated by such treatment processes.
- (j) Excessive discoloration (such as, but not limited to, dye waste and vegetable tanning solutions).
- (k) ~~pH lower than 4.5 or greater than 10.0.~~

CITY OF BONIFAY, FLORIDA  
AMENDED ORDINANCE NO. 274

**AN ORDINANCE PROMULGATING TREATING AND DISPOSING OF SEWAGE,  
INDUSTRIAL WASTE AND OTHER WASTE GENERATED BY EACH USER,  
PREVENTING DISCHARGE BY MATERIALS DESIGNATED AS TOXIC,  
HAZARDOUS OR INJURIOUS TO THE CITY'S SEWER SYSTEM AND  
PROVIDING PENALTIES THEREFORE.**

**SECTION 1:**

A user is any person, firm, corporation, partnership, trust or any other entity which utilizes the services of the City's sewer system for disposal.

**SECTION 2:**

Any discharge of wastes or water into a sewer which terminates in or is part of, the sewer system of the City Sewage System must not contain the attached substances. SEE EXHIBIT A (ATTACHED AND INCORPORATED BY REFERENCE).

**SECTION 3:**

Any user operating discharging grease fats or oils in excess of 250mg/L must have a grease trap and said grease trap must be pumped for removal of all greases, oil, and fats once per every ninety (90) days. The user in excess of the limits herein shall cause to be filed a certified statement by the contractor who pumped or removed the oils, fats, and grease the following:

I HEREBY CERTIFY that my company and/or I lawfully removed and lawfully disposed of all waste from the grease trap on \_\_\_\_ (day) \_\_\_\_ day of \_\_\_\_ (month) \_\_\_\_\_, \_\_\_\_ (year) \_\_\_\_\_, from the \_\_\_\_\_ (name of restaurant) \_\_\_\_\_ who is owned by \_\_\_\_\_ (name of owner) \_\_\_\_\_.

By: \_\_\_\_\_

Contractor

**SECTION 4:**

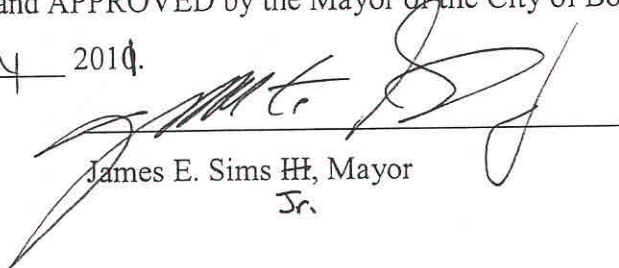

In the event any user that meets the requirements of Section 3 above does not provide the required certified statement by a properly licensed contractor, then the City will have the option of hiring a properly licensed contractor for the purpose of pumping said grease traps

that are in violation of this ordinance. All expenses incurred by the City in order to bring the user into compliance with this Ordinance will be added onto the user's utility bill for the month in which said pumping services were rendered.

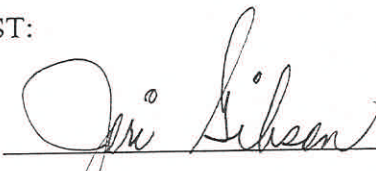

**SECTION 5:**

In addition to the fees that could be accessed in Section 4 above, any user which disposes of any substances as described in paragraph two which results in the City being fined by any other governmental Agency shall pay all fines incurred by the City, all costs and a fine of \$500.00 and in no fine or penalty then \$500.00.

PASSED by the City Council and APPROVED by the Mayor of the City of Bonifay,  
Florida this 10<sup>th</sup> day of January 2010.

  
James E. Sims ~~III~~, Mayor  
Sr.

ATTEST:

Jeri Gibson, City Clerk

## EXHIBIT A

Any discharge of wastes or water into a sewer which terminates in or is part of the sewer system of the City of Bonifay, Florida's Sewage System must not contain the following substances:

1. Fats, oils or grease in excess of 250mg/L.
2. Liquids, solids or gases which by reason of their nature or quantity are sufficient to cause fire or explosion or be injurious in any other way to the sewage system or to the operation of the water reclamation plants.
3. Noxious or malodorous liquids, gases or substances which either singly or by interaction with other wastes are sufficient to create a public nuisance or hazard to life, to cause injury or to prevent entry into the sewers for their maintenance and repair.
4. Water or wastes containing toxic substances in quantities which are sufficient to interfere with the biological processes of the water reclamation plants or with the disposal of sludge in any environmentally acceptable and economical manner.
5. Garbage that has not been ground or comminuted to such a degree that all particles will be carried freely in suspension under conditions normally prevailing in public sewers, with no particles greater than on-half inch in any dimension.
6. Radioactive waste of any kind.
7. Solid or viscous waste which causes obstruction to the flow of sewers or other interference with the proper operation of the sewage system or water reclamation plants, such as grease, uncomminuted garbage, animal guts or tissues, paunch manure, bone, hair, hides, fleshings, entrails, feathers, sand cinders, ashes, spent lime, stone, marble dust, metal, glass, straw, shavings, grass clippings, rags, spent grain, waste paper, wood, plastic, gas, tar, asphalt residues, residues from refining or processing of fuel or lubricating oil, gasoline, naphtha, and similar substances.
8. Liquids or vapors having a temperature higher than 150°F at the point of entrance into a public sewer.
9. Waters or waste containing substances which are not amenable to treatment or reduction by the sewage treatment process employed or are amenable to treatment only to such degree that the water reclamation plant's effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters, or over the disposal of sludge generated by such treatment processes.
10. Excessive discoloration (such as, but not limited to, dye waste and vegetable tanning solutions).
